CONTENTS OF VOLUME 18

PART 1

	Communication	Page
The Enumeration of Yeasts in *Hevea* Latices. *C.K. John and D. H. Taysum*	355	1
The Influence of Volume Rate and Droplet Size on the Efficiency of Herbicidal Sprays. *P. Riepma Kzn*	356	4
Herbicidal Effect and Plant Succession When Using Paraquat and Amitrole Against *Paspalum conjugatum* and *Melastoma malabathricum*. *P. Riepma Kzn*	357	15
Effects of Cover Plants on Soil Nutrient Status and on Growth of *Hevea* II. The Influence of Applications of Rock Phosphate, Basic Slag and Magnesium Limestone on the Nutrient Content of Leguminous Cover Plants. *G. A. Watson, Wong Phui Weng and R. Narayanan*	358	28

PART 2

The Effect of Rubber Price and Yield Per Acre on Estate Production Costs. *D. R. Westgarth and R. Narayanan* ...	359	51
The Response of Immature *Hevea brasiliensis* to Fertilisers in Malaya I. Experiments on Shale-derived Soils. *J. Bolton*	360	67
Effects of Cover Plants on Soil Nutrient Status and on Growth of *Hevea* III. A Comparison of Leguminous Creepers with Grasses and *Mikania cordata*. *G. A. Watson, Wong Phui Weng and R. Narayanan*	361	80

PART 3

The Proteins of *Hevea brasiliensis* Latex. Part 5. Starch Gel Electrophoresis of *C* Serum Proteins. *S. J. Tata and G. F. J. Moir*	362	97
A Comparison of Rock Phosphate with Superphosphate, and of Ammonium Sulphate with Sodium Nitrate, as Sources of Phosphorus and Nitrogen for Rubber Seedlings I. The Effect upon Growth and Soil pH. *K. R. Middleton and Chin Tet Tsoy*	363	109
Effects of Cover Plants on Soil Nutrient Status and on Growth of *Hevea* IV. Leguminous Creepers Compared with Grasses, *Mikania cordata* and Mixed Indigenous Covers on Four Soil Types. *G. A. Watson, Wong Phui Weng and R. Narayanan*	364	123
Root-knot Nematodes of Leguminous Covers in Rubber Plantations. *B. Sripathi Rao*	365	146

PART 4

	Communication	Page
Electron Microscopy of Partially Dried Sheet Rubber. *W. A. Southorn*	366	151
The Control of *Tetracera scandens*. *P. Riepma, Kzn*	367	155
Effects of Cover Plants on Soil Nutrient Status and on Growth of *Hevea* V. Loss of Nitrate-Nitrogen and of Cations Under Bare Soil Conditions. A Progress Report on Results From a Small-Scale Trial. *G. A. Watson, Wong Phui Weng and R. Narayanan*	368	161
Response of Rubber Trees to Sulphur Dioxide in the Atmosphere. *Eileen Brennan, Ida A. Leone and R. H. Daines*	369	175
Studies on the Germination of Pollen of *Hevea brasiliensis in Vivo* and on Artificial Media. *S. K. Majumder*	370	185
Chemical Analysis of Plant Material in Four Laboratories Supported by the Natural Rubber Industry in Malaysia. *K. R. Middleton, P. R. Gyss, J. C. Fallows and J. A. Varley* ...	371	194
The Influence of Formulation on Yield Response and Bark Damage Following the Application of Yield Stimulants Above the Tapping Cut. *P. D. Abraham and S. G. Boatman* ...	372	211

PART 5

Evidence for the Presence of Growth Inhibitory Substances in *Mikania cordata* (Burm. F.) B.L. Robinson. *Wong Phui Weng*	373	231
The Use of Light Traps to Control the Cockchafer *Lachnosterna bidentata* Burm. in Malayan Rubber Plantations. *B. Sripathi Rao*	374	243
Copper Sulphate as a Yield Stimulant for *Hevea brasiliensis* I. Experimental Stimulation of 1931 Budded Rubber with 2,4-D or 2,4,5-T in the Presence or Absence of Copper Sulphate Injection. *B. J. Mainstone and K. S. Tan*	375	253
Copper Sulphate as a Yield Stimulant for *Hevea brasiliensis* II. Techniques for the Application of Copper Sulphate. *J. S. Lowe*	376	261
Chromosome Studies of some Species of *Hevea*. *S. K. Majumder*	377	269
Effect of Time of Fertiliser Application on Leaf Nutrient Composition. *V. M. Shorrocks*	378	276

AUTHOR INDEX, VOLUME 18

Abraham, P. D. and Boatman, S. G. 211

Boatman, S. G. *see* Abraham, P. D.
Bolton, J. 67
Brennan, Eileen, Leone, Ida A. and Daines, R. H. 175

Chin, T. T. *see* Middleton, K. R.

Fallows, J. C. *see* Middleton, K. R.

Gyss, P. R. *see* Middleton, K. R.

John, C. K. and Taysum, D. H. 1

Leone, Ida A, *see* Brennan, Eileen
Lowe, J. S. 261

Mainstone, B. J. and Tan, K. S. 253
Majumder, S. K. 185, 269
Middleton, K. R. and Chin, T. T. 109
Middleton, K. R., Gyss, P. R., Fallows, J. C. and Varley, J. A. 194
Moir, G. F. J. *see* Tata, S. J.

Wong, P. W. 231
Wong, P. W. *see also* Watson, G. A.

SUBJECT INDEX, VOLUME 18

Titles of papers are given in italics.

A comparison of Rock Phosphate with Superphosphate, and of Ammonium Sulphate with Sodium Nitrate, as sources of Phosphorus and Nitrogen for Rubber Seedlings I. The Effect upon Growth and Soil pH. 109

Ageratum conyzoides L. 147
Amitrole *see* Weedkillers
Amphimallon majalis Raz. 251
Axonopus compressus 8, 17, 80

Banvel D *see* Weedkillers
Banvel T *see* Weedkillers
Bark:
  damage after yield stimulation 211
  necrosis, effect of copper sulphate 261
  renewal 211, 212, 218, 226
  thickness 216, 220
Basic slag *see* Fertilisers
Beetles *see under names of species*
Borreria latifolia 15
Borreria setidens Ridl. 147
Borreria spp. 163

Cacodylic acid *see* Weedkillers
Callicarpa longifolia Lam. 147
Calopogonium mucunoides Desv. 29, 80, 146, 148, 161
Cassia occidentalis L. 146
Centrosema plumierii Benth. 146
Centrosema pubescens Benth. 28, 80, 146, 148, 161
Chemical analysis of Plant Material in Four Laboratories Supported by the Natural Rubber Industry in Malaysia 194
Chemical analysis *see* Plant analysis *and* Soils: analysis
Christmas Island rock phosphate *see* Fertilisers
Chromosome Studies of some Species of Hevea 269
Chromosomes:
  Hevea 269
Cleome ciliata 15
Clitoria laurifolia 148
Clitoria rubiginosa Juss. ex Pers. 148, 150
Clones:
  meiotic studies 272
  AVROS 49 261
  AVROS 50 253, 261

AVROS 152 261
AVROS 157 272
BD 5 261, 266
BD 10 261
LCB 1320 272
PB 186 261
RRIM 501 272, 276
RRIM 527 272
RRIM 612 265
RRIM 628 272
RRIM 701 272
Tjir 1 253, 261

Cockchafer (*see also Lachnosterna bidentata* Burm.) 243

Copper Sulphate as a Yield Stimulant for Hevea brasiliensis I. Experimental Stimulation of 1931 *Budded Rubber with 2,4-D or 2,4,5-T in the Presence or Absence of Copper Sulphate Injection* 253

Copper Sulphate as a Yield Stimulant for Hevea brasiliensis II. Techniques for the Application of Copper Sulphate 261

Costs:
copper sulphate yield stimulation 267
effect of rubber price and yield per acre on production costs 51

Cover plants (*see also under names of species*):
dry matter production and nutrient content 31, 82
effect on growth of *Hevea* 28, 80, 123, 161
effect on *Hevea* nutrient content 125
effect on leaf fall 90
effect on soil nutrient status 28, 80, 123, 161
grasses 80, 123
influence of fertilisers 28
leguminous creepers 28, 80, 123, 130
comparison with fertilisers 132
Mikania cordata 123, 130, 231
mixed indigenous 123
natural 131
nitrate-nitrogen loss 161
non-leguminous
depression of tree growth 132
nutrient content 32, 125
root-knot nematodes 146
surface root development 85

Crotalaria anagyroides H.B.K. 148
Crotalaria striata DC. 148

Crotalaria usaramoensis Bak. 146, 148
Croton hirtus L'Heritier 147
Croton spp. 163
Cyperus brevifolius 18
Cyperus sphaceolatus 18
Cyrtococcum accrescens (*Panicum trigonum*) 18

Dalapon *see* Weedkillers
Desmodium ovalifolium Wall. (*D. heterocarpon*) 146, 148
Desmodium polycarpum DC. 146
Desmodium triflorum DC. 146
Dianella ensifolia 124
Digitaria longiflora 18
Digitaria spp. 163
Dilleniaceae 155
Disodium methylarsonate *see* Weedkillers
Dry rubber content 256

Eclipse knapsack sprayer 4
Effect of Time of Fertiliser Application on Leaf Nutrient Composition 276
Effects of Cover Plants on Soil Nutrient Status and on Growth of Hevea II. The Influence of Applications of Rock Phosphate, Basic Slag and Magnesium Limestone on the Nutrient Content of Leguminous Cover Plants 28
Effects of Cover Plants on Soil Nutrient Status and on Growth of Hevea III. A comparison of Leguminous Creepers with Grasses and Mikania cordata 80
Effects of Cover Plants on Soil Nutrient Status and on Growth of Hevea IV. Leguminous Creepers Compared with Grasses, Mikania cordata and Mixed Indigenous Covers on Four Soil Types 123
Effects of Cover Plants on Soil Nutrient Status and on Growth of Hevea V. Loss of Nitrate-nitrogen and of Cations under Bare Soil Conditions. A Progress Report on Results from a Small Scale Trial 161
Electron Microscopy of Partially Dried Sheet Rubber 151
Electropherograms:
    effect of starch concentration 100
    apparatus 99
Eleusine indica 17
Eupatorium odoratum 155
Evidence for the Presence of Growth Inhibitory substances in Mikania cordata (*Burm f.*) *B.L. Robinson* 231

Fernoxone *see* Weedkillers
Ferns (*see also under names of species*) 155
Fertilisation of pollen *in vivo* 185
Fertilisers (*see also* Plant nutrients *and* Leaf: nutrient content)
    acidifying effects 109
    ammonium sulphate 72, 109, 118, 276
    application method 90
    basic slag 28
        comparison with rock phosphate 29, 34

Christmas Island rock phosphate 28, 109, 118, 277
dolomitic limestone 120
effect of time of application on leaf nutrient composition 276
effect on cover plants 28, 127
effect on growth of *Hevea* 67, 109, 132
effect on soil pH 114
kieserite 276
limestone 109, 120
magnesium limestone 28, 31, 35, 276
magnesium sulphate 109, 276
nitrogenous 72, 109, 124, 132, 276
NPK 124, 132
on shale-derived soils 67
phosphate 28, 72, 109, 276
potassium chloride 276
potassium sulphate 109
response of immature *Hevea brasiliensis* 67
rock phosphate 28, 32, 72, 109, 124, 276
sodium molybdate 29, 31
sodium nitrate 109, 118
superphosphate 109, 119
trace element supplement 109

Ficus spp. 163
Flemingia congesta Roxb. (*Moghania macrophylla*) 124, 146, 148
Flintkote Type 7 Emulsion, as plug 261, 263
Floroxone *see* Weedkillers
Fomes lignosus 231, 234

Germination:
pollen
effect of temperature 189
in vivo and on artificial media 185
Girths:
effect of cover plants 80
effect of fertilisers 70
Gramoxone (paraquat) *see* Weedkillers
Grasses (*see also* Cover plants *and under names of species*) 80, 123, 155
effect of herbicides 4
Growth of *Hevea*
and soil pH 109
depression by non-leguminous cover plants 132
effect of cover plants 28, 80, 123, 161
effect of fertilisers 67, 109, 132
Growth inhibitory substances:
in *Mikania cordata* 231

Heptachlor *see* Insecticides
Herbicidal Effect and Plant Succession when using Paraquat and Amitrole Against Paspalum conjugatum and Melastoma malabathricum 15

Herbicidal sprays 4
Herbicides *see* Weedkillers
Heterodera marioni (Cornu) Goodey 146
Hevea benthamiana 269
Hevea pauciflora 269
Hevea spruceana 269
Hornstedtia spp. 163
Hyptis brevipes Poit. 147

Imperata cylindrica 4, 15
Indigofera endecaphylla Jaq. 146, 148
Indigofera suffruticosa Mill. 148
Injection *see* Tree Injection
Inoculation, seed 29
Insecticides:
    heptachlor 247
Ischaemum timorense 163

Kuron *see* Weedkillers
Lachnosterna bidentata Burm.:
    control 243
    flighting habits and sex ratio 248
Lantana spp. 163
Latex:
    centrifugation at high speed 97
    effect of copper stimulation 261, 265
    proteins 97
    yeasts 1
Leaf:
    analysis (*see also* Plant analysis) 76, 194, 204
    ashing for analysis 195
    effect of sulphur dioxide 175
    fall, effects of cover plants on 90
    nutrient content
        effect of cover plants 80, 89, 90, 125
        effect of fertilisers 89
        effect of time of fertiliser application 276
Legumes *see* Cover plants *and under names of species*
Leguminous creepers (*see also under names of species*) 28, 80, 123
Leucaena glauca Benth. 148, 150
Light traps 243
Lissapol N *see* Wetting agent

Macaranga spp. 163
Magnesium limestone *see* Fertilisers
Mallotus spp. 163
Meiosis 269, 272
Melastoma malabathricum 15, 155

Meloidogyne Goeldi 146
Meloidogyne incognita Chitwood 150
Meloidogyne javanica 150
Melolonthid beetles 243
Merremia sp. 147
Mikania cordata (*Mikania scandens*) 15, 80, 123, 231
Mimosa invisa Mart. cv. 'Inermis' 146, 148
Mimosa pudica L. 17, 146
Moghania macrophylla (Willd.) O. Kuntze 146
Molybdate *see* Fertilisers

Nematodes (*see also under names of species*):
root-knot, of leguminous covers 146
Nephrolepis biserrata 124
Nozzle orifice, spray 4

Ottochloa nodosa (*Panicum nodosum*) 8, 15, 163

Panicum nodosum see Ottochloa nodosa
Panicum trigonum see Cyrtococcum accrescens
Paraquat *see* Weedkillers
Paspalum conjugatum Berg. 6, 15, 80, 231
Passiflora foetida L. 18, 147
Phaseolus calcaratus Roxb. 146, 148
Plant analysis:
leaf 76, 194, 204
methods 194
Plant nutrients:
boron 110
calcium 114, 125, 127
C/N ratio 125
content of cover plants 82, 125
copper 110
cover crops 32, 125
magnesium 114, 125, 198
manganese 110, 125, 198
methods 194
molybdenum 111
nitrate-nitrogen 110, 167
nitrogen 72, 109, 114, 116, 125, 166, 198
phosphorus 29, 72, 109, 125, 198, 241
potassium 125, 198
trace elements 110, 114, 118
zinc 110
Pollen:
germination, effect of temperature 189
germination *in vivo* and on artificial media 185
meiosis of mother cells 269

Price of rubber (*see also* Costs):
effect on profitability 51
Production costs of rubber *see* Costs
Productivity (*see also* Costs) 64
Proteins:
C serum 97
Pueraria phaseoloides Benth. (*see also* Cover plants) 17, 28, 80, 110, 146, 148, 161, 231

Response of Rubber Trees to Sulphur Dioxide in the Atmosphere 175
Rhizobia inoculation 29
Rock phosphate *see* Fertilisers
Root development:
surface roots of *Hevea* and cover plants 85
Root disease:
white (*Fomes lignosus*)
incidence in cover plant experiments 130
inhibition by *Mikania cordata* distillates 238
Root-Knot Nematodes of Leguminous Covers in Rubber Plantations 146
RSS 1, cost of production 52

Scleria laevis 18
Scleria multifoliata 8
Scleria sumatrensis 18
Scoparia dulcis L. 147
Seed inoculation 29
Sheet rubber:
cost of production 51
partially dried, electron microscopy 151
Sodium molybdate *see* Fertilisers
Soils:
alluvial 67, 80, 124
analysis 68, 76, 87
bare
effect on nitrate-nitrogen, organic carbon, cations and pH 161
Batu Anam series 69
coarse sandy 124
coastal 67
concretionary laterite 69, 124
granite-derived 67, 124
